

THE Gleichen Call

Thirteenth Year, No. 17

GLEICHEN, ALBERTA, WEDNESDAY, JULY 16, 1919

Queenstown Farmers Picnic Friday Next

As already announced in The Call the Queenstown Farmers picnic will be held on Friday, July 18. It will be held on the north side of the Bow river on the big flat about three-quarters of a mile west of the bridge, practically due south of Cluny. The best way to reach it from the south is to cross the bridge and take the trail west over the hill about half a mile and then follow the Indian trail down to the flat. For people coming from Gleichen and Cluny the best route is past the Indian slaughter house and then follow the flat east about a mile.

The sports committee have arranged for a number of races.

Mrs. Welch of Gleichen will speak and advise the Queenstown women to form a branch of the U.F.W.A.

In the evening those who care to dance will go to the Milo hall for a good time.

The Lake McGregor bathing beach is well patronized and becoming more famous every day. The natives of Queenstown, Majorville and Milo can no longer be classed among the great unwashed. Yes, when you want to take your annual swim it is not necessary to go up to Banff. Lake McGregor has them all skinned a mile. Two bathing houses (empty granaries) have been pulled down on the east side of the lake shore about a mile south of Wallace Hall's place. Aasgard & Stewart are doing a rushing business selling bathing suits. Sunday week there must have been nearly fifty cars on the spot.

Some of the more enterprising boys out here are now planning to purchase a motor launch to put on the lake and very soon we will hear the cry, "All aboard for the Little Bow. Round trip one bone."

For sometimes the Municipal Council has been negotiating with the government for a park site on the west side of the lake, south of the dam. For some reason the government will not give away this site, but a tract of 80 acres directly northwest has been offered to the Council.

A baby boy arrived at the Smallcombe home last week.

Two sisters of James Burk from Texas and a cousin from Iowa has been visiting with the Burk family.

The Misses Giversons have gone back to their old home in New Brunswick for a visit, taking Miss Jessie Burk along on the trip.

There is a possibility that the road across the old Snake Lake bottom, directly west from the Mile Hall, will be graded this summer. The expense, which on a rough estimate will amount to about \$4000, will be divided between the Municipality and the Provincial Government.

Mr. and Mrs. Ostrander of Macleod visited Gleichen a few days last week.

C.P.R. Offers Cup for Hard Spring Wheat

In connection with the International Soil Products Exposition, to be held at Kansas City, Mo., Sept. 24 to Oct. 4, the Department of Colonization of the Canadian Pacific Railway is offering a silver cup of the value of \$500 for the best half bushel of hard spring wheat exhibited. It is hoped that every farmer

Chautauqua Opens Friday

With the coming of the Chautauqua this year, comes a notable event to Gleichen, for Chautauqua has a large place in the progressive development of our modern ideals and life. And this year, a year, of reconstruction, unrest and change, when we are susceptible and wavering we need to unify our minds for national safety.

The lecturers have been chosen who can intelligently discuss the vital and more serious problems of the day. Glenn Frank, associate editor of Century Magazine, author of "Stakes of War," a book used as a reference book at the peace conference for the forming of a League of Nations, will be here. Mr. Frank is accredited with being one of the brightest young men of the age.

Mrs. A. C. Zehner, a notable figure in American life, will discuss national problems in her lecture "Forces That Hinder or Help the Progress of a Nation."

Dr. William Rader who appears on the first night is an author and lecturer of national reputation and comes with a message that rings true.

Major Thornton Mills, son of the famous Benj. Fay Mills, and prominent figure in the industrial world today, will be here.

E. J. Klemme, great educator.

Edna E. Lowe, authority on health.

Dr. G. Whitfield Ray, famous Canadian explorer.

Mildred Leo Clemens, cousin of Mark Twain, will be heard in interesting discussions and lectures.

And there will be good music and delightful entertainment.

An audience sent away with a smile or a tear, with more humane sentiments and greater hope for humanity and with a larger outlook; that audience is benefited and is also fitted for richer living. The real values cannot be measured in dollars. Your Chautauqua has something for you.

in Alberta, who has a good sample of wheat this year will submit a half bushel in this competition. Those competing for this cup will automatically become competitors for the prizes offered by the International Farming Congress in this class, which includes a first, second and third prize. In addition they have a chance of winning also the sweepstakes for wheat. The winning sample of hard spring wheat is usually the best exhibit of wheat shown at the exposition and thus wins the sweepstakes prize, and the exhibits from Western Canada generally carry all before them in this class. Last year the C.P.R. cup, the sweepstakes for wheat and the first prize for hard spring wheat were won by Seager Wheeler, of Rosthern, Sask., with H.B. Sheeley of High River, Alberta, a good second. No cup was offered by the C.P.R. in 1917, but the sweepstakes for wheat and first prize for hard spring wheat were won by Samuel Larcombe of Birtle, Manitoba, that year.

In addition to the above, other valuable prizes will be offered for every variety of field crops. Of late years farmers from Western Canada have carried away the lion's share of these prizes, and no doubt their exhibits will be conspicuous again this year. An official premium list of the exposition should be ready in a few days, and a copy can no doubt be obtained by writing to the secretary of the International Farm Congress at Kansas City, Mo.

Industrial Congress August 11th to 16th

The demand for a foreign trade commission to represent the Western provinces of Canada, exclusively, originated by the Alberta, Canada Industrial Development Association and urged by the president of that organization from ocean to ocean in many special addresses before public bodies, seems now to be certain of ultimate fulfillment, if one may judge by advices received at the headquarters of the Canadian Industrial Congress, August 11-16, from many sources.

Advice to this effect are received from Winnipeg, from Vancouver and even from Ottawa, and it is now apparent that many of the members of the Dominion Government look with favor on the idea.

The proposal for a foreign trade commission for the West was originated by Mayor M. A. Brown of Medicine Hat, president of the Alberta Industrial Association. It is based on the belief that only by a proper investigation of the foreign markets for Western Canadian products can the West build up industry to its maximum. Such an investigation, it is explained by Mayor Brown, would deal specifically with those possible markets for Canadian products lying on and adjacent to Pacific Ocean routes of traffic and the vast vast undeveloped Oriental marts.

Mayor Brown holds to the belief that eventually Western Canada will some day be manufacturing on a larger scale than eastern Canada because of the great potentialities in this connection in China and Japan as well as along the Western Coast of South America and in Australia.

"The world does not realize," Mr. Brown points out, "that one-seventh of the population of the globe is living and striving and working along the banks of one river alone in China. The possibility of the development of this wonderful market is just one aspect of the great trade which Western Canada and the western portion of the United States will have the great opportunity to deal with."

"Great economists of the day, men with vision, see the development of the Pacific regions as the most striking aspect of the future of our continent. I may add that by Pacific regions I include those inland empires such as our own, Alberta, Canada."

Strong support is being given the project for a Western foreign trade commission especially in Vancouver, Seattle, Portland and other western cities more easterly, such as Winnipeg, Regina and Saskatoon. All these cities will be represented by good delegations at the forthcoming Industrial Congress, to be held in Alberta in August. The prin-

cipal or "educational" sessions of this congress will be held at Calgary on August 13 and 14. The industrial men of the continent are being asked to participate.

The Gleichen Women's Institute will meet Thursday evening, July 31, at 8 o'clock at the home of Mrs. Bremner. Roll call: "A recipe for making a summer drink."

"The Legion of Death," describing Russia's fight for freedom, will be shown at the Gleichen Opera House on July 23 and 24.

Who can estimate the value of the rain Saturday? Another such rain now is much needed.

Read what the Alberta Pacific Grain Co. says about coal.

It is hot.

For Sale

Tenders will be received by the undersigned up to and including August 5th, 1919, for the purchase of a two story frame building 28x75 and five lots number 7, 8, 9, 10 and 11 in Block 1, situated in the village of Standard, Alberta.

The building is suitably adapted for mercantile or warehousing purposes, or if so desired the purchaser can wreck the building and get a considerable amount of very useful lumber out of it.

Terms on application.

Crown Lumber Co., Ltd.
STANDARD, ALTA.

Pimp Face? Drive 'Em Away This Very Night

Simple and Inexpensive Way to
Clear up Sallow Complexion

YOU GET RESULTS QUICKLY

An easy way to freshen up the dulled, sallowest skin is to purify the blood, clear it of all humors, and enrich it by the regular use of Dr. Hamilton's Pills.

Not only will Dr. Hamilton's Pills put roses in your cheeks and brighten in your eyes, they will do wonders for your general health, and quickly make you feel and look like a new person.

Impossible to have headache, indigestion, or bilious fits if you tone the system with Dr. Hamilton's Pills. Neither will you have torpid liver, constipation or bad breath. Your whole body will be cleansed, purified, strengthened.

To get back lost looks and to restore fading health no better medicine for man or woman than Dr. Hamilton's Pills could be recommended. For forty years the Catarhoxone Co. have sold them under guarantee in 25c boxes.

(Continued)

At the little stream she paused. A single log was the only bridge, and although the water was not deep it ran swiftly, and still with the coldness of its glacier source. She ventured along the log, but near the centre she was seized with an acute sense of her temerity. Perhaps she had been foolish in attempting this passage without the aid of a stick. A stick, which could be shoved against the gravel below that blue water, would have been a very practical aid. Suddenly, the waverings of the mind were transmuted to the body. She felt an impetuous desire to fall upstream, which she resisted so successfully that she promptly fell down stream. The water was deeper than it looked, and colder than it looked, and when she scrambled up the farther bank she was a very wet young woman indeed. She was conscious of a deep annoyance toward young Elden. A fine bridge, that! She would tell him—but this thought died at its birth with the consciousness that Elden would be amused over the incident, and would be at little pains to disguise his merriment. And then she laughed and ran along up the road.

The grips were duly found, and Irene congratulated herself that she and her father were in the habit of travelling with equipment for over-night. She had even a spare skirt along, with which she was able to disguise her mishap at the stream, although she took the precaution not to make the change until she was safe back over the narrow bridge. And this time she used a stick. Arrived at the house, she deftly wrapped a bandage about her father's injury, and set to work at the preparation of supper—a task not strange to her, as her mother considered it correct that her daughter should have a working knowledge of kitchen affairs. Her equipment was meagre, and she spent more time scouring than cooking, but her heart beat high with the spirit of adventure.

Once during the evening she took a glance into the other room. It was even less inviting than Dave's, with walls bare of any adornment save dirty garments that hung from nails driven in the logs. On the rude bed lay an old man; she could see only part of his face; a grey moustache drooping over an open mouth, and a florid cheek turned to the glow of the setting sun. On a chair beside the bed sat a bottle, and the room reeked with the smell of breath charged with alcohol. She gently closed the door, and busied herself through the long evening with reforms in the kitchen, and with little ministrations designed to relieve the sufferings of her father.

The sun sank behind the Rockies, and a darkness, soft and mystical and silent, stole up the valley, hushing even the noiseless day. Presently the glow of the rising moon burst in ruddy effulgence over the foothills to the east, first with the effect of fire upon their crests, and then as a great, slowly-whitening ball soaring high into the fathomless heaven. The girl

stood framed in the open window, and the moonlight painted her face to the palest ivory, and toyed with the rich brown fastness of her hair, and gleamed from a single ornament at her throat. And she thought of the young horseman galloping to town; homeward journey, and the eerie depths of the valley communicated to her a fantastic admiration for his skill and bravery. She was under the spell. She was in a new world, where were manhood, and silence, and the realities of being; and moonlight, and great gulfs of shadow between the hills, and large, friendly stars, and soft breezes pushing this way and that without definite direction and strange, quiet noises from out of the depths, and the incense of the evergreens, and a young horseman galloping into the night. And conventions had been swept away, and it was correct to live, and to live!

CHAPTER II.

The first flush of dawn was mellowing the eastern sky when the girl was awakened from uneasy sleep by sounds in the yard in front of the ranch house. She had spent most of the night by her father's side, and although he had at last prevailed upon her to seek some rest for herself, she had done so under protest and without undressing. Now, after the first dazed moment of returning consciousness, she was on her feet and through the door.

The stars were still shining brightly through the cold air. In the faint light she could distinguish a team and wagon, and men unhitching. She approached, and in a voice that sounded strangely distant in the vastness of the calm night, called, "Is that you, Dave?"

And in a moment she wondered how she had dared call him Dave. But she soon had other cause for wonder, for the boy replied from near beside her, in that tone of friendly confidence which springs so spontaneously in the darkness, "Yes, Reenie, and the doctor, too. We'll have Mr. Hardy fixed up in no time. How did he stand the night?"

How dared he call her Reenie? A flush of resentment rose in her breast only to be submerged in the sudden remembrance that she had first called him Dave. That surely gave him the right to address her as he had done. But with this thought came recognition of the curious fact that Dave had not presumed upon her frankness; that it was not by her word that he would attempt to justify his. Indeed, she was convinced that he would have called her Reenie, anyway—just as she had called him Dave, without premeditation or intention. Then she remembered she was in the ranch country, in the foothills, where the conventions—the conventions she hated—had not yet become rooted, and where the souls of men and women stood bare in the clear light of frank acceptance of the fact. It would be idle—dangerous—to trifle with this boy by any attempt at concealment or deception. And what were conventions but a recognized formula of concealment and deception?

She could see his form now, as he led the horses toward the corral. How straight he was, and how bravely his footsteps fell on the hard earth! The poetry of his motion reached her through the darkness. She heard the harness jingle as the horses rubbed between the posts of the corral gate. "He's a wonderful boy," said the doctor, of whose presence she had been unconscious. "Cat's eyes. Full gallop through the dark; side hills, mountain streams, up and down; Break-neck. Well, here we are." The doctor breathed deeply, as though this last fact were one to occasion some wonderment. "Your brother tells me you have an injured man here; accident; stranger, I believe? Well, shall we go in?"

Brother! But why should she explain? Dave hadn't bothered. Why hadn't he? He had told about the stranger; why had he not told about both strangers? Why had he ignored her altogether? This time came another flush, born of that keen womanly intuition which understands.

With a commonplace she led the doctor into the house and to the bedside of her father. She was struck by the change in attitude of the visiting physician when he learned that his patient was of his own profession. It was like the meeting of brothers in a secret order. There was an exchange of technical terms that might have served as password or sign into some fine fraternity, and the setting of the limb was accompanied by a running fire of professional comment as effective upon the nerves of the sufferer as an opiate.

When the operation was completed the girl turned her attention to the kitchen, where she found Dave, sweating in vicarious suffering. He had helped to draw the limb into place, and it had been his first close contact with human pain. It was different from branding calves, and he had slipped out of the room as soon as possible. The morning sun was now

pouring through the window, and the distraught look on the boy's face touched her even more than the frankness of the words spoken in the darkness. She suddenly remembered that he had been up all night—for her. She would not deceive herself with the thought that it was for her father's sake Dave had galloped to town, found a doctor, secured a fresh team and driven back along the little-used foothill trails. She recalled the doctor's terse description of that journey. No doubt Dave would have done it all for her father had her father been there alone, but as things were she had a deep conviction that he had done it for her. And it was with a greater effort than seemed reasonable that she laid her fingers on his arm and said, "Thank you, Dave."

"What for?" he asked, and she could not doubt the genuineness of his question.

"Why, for bringing the doctor, and all that. Driving all night on those awful roads. We fell off them in daylight. I am sure I can't—Father won't be able to—"

"Oh, shucks," he interrupted, with a manner which, on the previous afternoon, she would have called rudeness. "That's nothin'. But say, I brought home some grub. The chuck here was pretty tame; guess you found that out last night." He looked about the room, and she knew that he was taking note of her house-cleaning, but he made no remark on the subject.

"Well, let's get breakfast," she said, after a moment's pause, and for lack of other conversation. "You must be hungry."

Dave's purchases had been liberal. They included fresh meat and vegetables, canned goods, coffee, rice and raisins. He laid the last three items on the table with a great dissembling of indifference, for he was immensely proud of them. They were unwelcome items on the Elden bill of fare; he had bought them especially for her. From somewhere the knowledge had been borne in upon him that city people frequently drink coffee for breakfast, and the rice and raisins were an inspiration quite his own. He would see what she could do with them. But she busied herself at the breakfast without a thought of the epoch-marking nature of these purchases.

"Do you milk?" she asked, presently.

"Milk what?" he demanded, pausing with stove-lid and lifter raised in his hand, in the half-completed act of putting wood on the fire.

"Dave!" she cried. "Put water down. Look at the smoke." A blue cloud was curling under the rafters. "Yes," he said, with great composure. "It always does that in this country." She shot a quick glance at him. Was he making fun of her? No, plainly not; he was just making fun with her; he had a vein of humor. And a little before she had found his face drawn in sympathy for her father. Perhaps for her. . . . He was not all on the surface.

He completed his operation at the stove and returned the lid to its place with no lack of deliberation. He was evidently waiting for her to speak again, but she worked on in silence.

Poland's "Wants"

Her Leading Men Planning Practical Details for the Future

One of the most promising signs for the future of Poland is the immediate and definite way in which her leading men are planning practical details. Poland, for example, has compiled exact estimates of the quantity of agricultural tools and machinery needed to restore her agricultural life, a list ranging from 1,500 tractors to 1,200 dozen files and 150 large chains with spikes and hooks. Of the smaller tools of the farm Poland has decided that she will need 300,000 hoes, 150,000 picks, 300,000 shovels, 150,000 axes, 300,000 spades, 50,000 mattocks, 300,000 scythes, 450,000 sickles, and 300,000 whetstones to keep the tools sharp. It is in line with this practical consideration of the immediate future that Poland was the first of the newly created nations to establish a commercial bureau in the United States.

Confectionery in Ancient Egypt

The invention of confectionery, an English writer guesses, is due to Noah, who "first hit on the idea of boiling down the starch of the wheat and the juice of the grape. The result was a paste, said to be the original of our present-day 'Turkish delight.' Among the ancient Egyptians whole fruits, particularly figs and dates, were used for flavoring purposes, the latter especially for preserves and cakes. In old tombs date sweetmeats have been found, also records of honey jellies. The making of confectionery, in fact, goes back 3,400 years, proof of which is to be found on the walls of Egyptian tombs."

Heart Palpitated Could Count Every Beat

When the heart begins to palpitate it will beat fast for several seconds, then slow, then start to flutter, and a feeling of utter depression will come over your whole system, accompanied by weak, fainting and dizzy spells.

When the heart gets into this condition, you become weak, worn and miserable, and are unable to attend to either social, business or household duties.

Milburn's Heart and Nerve Pills will give prompt and permanent relief to all sufferers from any heart weakness or nerve derangements.

Mrs. Walter Greives, Aspley, Ont., writes: "I had been run down, and doctors told me I was anemic, but did not help me with their medicines. I could not sleep nights, my heart palpitated so, and I could count every beat."

I used to have such dizzy spells I would have to go to bed. I was not able to do any work for eight months. A cousin of mine had taken Milburn's Heart and Nerve Pills and told me what they had done for her. I took eight boxes of them, and now I am able to help every day with the work. I am so thankful to tell others what they have done for me, so that they may try this great and wonderful remedy. I hope this may prove good to someone who is suffering the way I did."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

Premier Eulogizes Dominions' Envoys

Should Not Forget Burden Borne By
Hon. H. H. Asquith

London.—Premier Lloyd George during the course of his speech in the Commons rendered a tribute to the assistance of the representatives of the Dominions in connection with the peace treaty deliberations. He mentioned the name of General Botha (cheers), who participated in some of the most difficult commissions, notably territorial commissions for adjusting the extraordinary delicate complex, ethical, economical and strategic questions which had arisen.

"We owed a great deal to the ability and judgment with which they helped on the innumerable commissions, and their work has been the admiration of foreign delegations," said Premier Lloyd George.

Sir Edward Carson expressed gratitude to the Premier for the greatest achievement in history. He had done so much that the nation was unable to realize all they owed him in patriotism, courage and genius in carrying on the war. That was the greatest contribution any man had given. He believed history would say, as regards the organization at the world, which meant so much for the success in the field, that the nation owed the Prime Minister a debt of gratitude. He had done more than any man to preserve the liberties of the world.

At the same time they should not forget the burden borne by Hon. H. H. Asquith early in the war. He had faced an unprepared country, and had great difficulties in bringing it to a realization of its responsibilities in the war.

Sir Edward made an eloquent plea for the league of nations. He declared that if it did nothing else, it would make peace more fashionable than war.

Automobiles

In the United States there is one automobile to every eighteen persons; in Canada there is one to every 25; in Australia, one for every 100; in England, one for every 268; in France one in 402; in Italy, one in 1,002; Mexico, one in 2,385; and in China, one in 267,207.

Self-made women outnumber self-made men a dozen to one—as any dealer in cosmetics will tell you.

Hurrah! How's This

Cincinnati authority says corn
dry up and lift out
with fingers.

Hospital records show that every time you cut a corn you invite lockjaw or blood poisoning, which is needless, says a Cincinnati authority, who tells you that a quarter ounce of a drug called freezone can be obtained at little cost from the drug store, but is sufficient to rid one's feet of every hard or soft corn or callus.

You simply apply a few drops of freezone on a tender, aching corn and soreness is instantly relieved. Shortly the entire corn can be lifted out, root and all, without pain.

This drug is sticky, but dries at once and is claimed to just shrivel up any corn without inflaming or even irritating the surrounding tissue or skin.

If your wife wears high heels she will be glad to know of this.

Over Sea And Back In A Day

Speedy Air Voyages Forecast By
Lieut.-Commander Read

New York.—That, within three years, with the interest and co-operation in aviation which prevailed during the war, it will have become the custom to travel to Europe by airship and not at all uncommon to go over in the morning and return in the afternoon, was forecast by Lieut.-Commander Albert C. Read, of the NC-4, at a dinner given in honor of him, Commander John T. Towers of the NC-3, Lieutenant-Commander N. L. Bellinger of the NC-1, and their crews, by the American Flying Club at the Hotel Commodore.

Commander Read told of the enthusiasm for flying which he found in England and France, and expressed his astonishment to find such a lack of general feeling toward aviation on his return to the United States.

Krupps Appeal To Workers

By Strikes Important Orders Have
Been Lost

Essen, Germany.—Krupp's works have had issued a statement to their workers, drawing attention to the fact that by their strikes and the consequent unrest in Germany important orders have been lost. A case has been cited of a contract with a great Dutch concern, which was lost and went to England, despite the much lower price quoted by Germany, because the Dutch mistrusted the ability of Krupp's to carry out the contract. Similarly, steel deliveries for the Norwegian state railway were given to an American firm, this also at a far higher price.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

Drastic Decree In Sonora

Persons In Any Way Dealing In
Liquor Shall Be Executed

Washington, District of Columbia.—Gov. Plutarco Elia Calles, of Sonora, Mexico, who has just been appointed Minister of Industry, Commerce and Labor in the Carranza Cabinet, has solved the difficulties of enforcing prohibition laws. Governor Calles recently returned to Sonora to turn over the government of the state to Adolfo De La Huerta, his successor. Mr. Calles had previously decreed prohibition for Sonora, but on his return found that moonshiners and smugglers were evading the law. So, following Carranza's system of legislating by decree, which was first used in Mexico in the preconstitutional days and has been continued by Carranza since that time, Calles issued another decree, addressed to the political heads of the various city and town officials, which reads:

"The executive has seen fit to decree, so that you may bring it to the notice of your municipality, in order that there may be no excuse of ignorance of the law, that hereafter all those persons in any way dealing in liquor shall be executed."

American Officers Decorated

London, England.—Sir Douglas Haig decorated 16 American officers on the Horse Guards Parade, before Major-General Biddle and the British and American staffs, surrounded by thousands of spectators. Sir Douglas said he hoped they would regard the decorations not only as a recognition from Great Britain of great services rendered, but also as reminders of the feeling of close comradeship existing between the armies in the field, as well as the admiration, esteem and real affection with which the British forces everywhere regarded their comrades in the American army.

Not Nice

William Huggins was angry, and he certainly appeared to have some justification for wrath.

"Liza," he expostulated, "don't I always tell you I won't 'ave the kids bringin' in the coals from the shed in my best 'at. It ain't nice, Liza."

"Just listen to reason, if you please, Bill," said his wife, coldly. "You have spoilt the shape of that hat with your funny head, and as you're working coal all day at the wharf, what can a little extra coal dust in your hat matter?"

"You don't see the point, Liza," said William, with dignity. "I only wear that 'at in the hevenin's, an' if while I'm 'out I takes it 'orff my head it leaves a black band round my forehead. Wot's the consequence? Why, I gets accused o' washin' my face with my 'at on. And it ain't nice, Liza."

The great curse of this country now is the fact that there are so many public officials whose business it is to attend to other people's business.—Florida Times-Union.

A man always does himself a good turn when he turns up an ally to dodge a saloon.

Believe Ex-Kaiser Will Kill Himself

U-Boat Commanders "Wanted" By
Entente Said to Be In "Fact
of Death"

Coblentz.—Up and down the Rhineland goes the word that William Hohenzollern, former emperor of Germany, never will be brought to trial as provided in the terms of the peace treaty which the conquered nation, through its Weimar assembly, has now voted to sign.

Friends of the former kaiser are not saying that he will commit suicide rather than face the judgment, but one reads in their declarations, pompous and verbose, that their ideas of the maintenance of William's honor hinges on that eventuality. Whether or not the man whose honor was such that he ran away rather than face his nation's crisis is such as to give him the nerve to solve the nasty problem by removing himself does not appear to enter into their speculations. They are simply sure the former kaiser will never come to trial.

In connection with the Rhineland expectation that the kaiser will rather commit suicide than face trial, there is another interesting story going the rounds of the Rhineland's beer gardens, where chagrined Germans are rejoicing over the burning of the French flags in Berlin, and planning again for "Der Tag," when they will clean up France. This story is to the effect that those submarine commanders, on England's blacklist for crimes against humanity committed in the von Tirpitz "spurious versenkt" sea warfare, and whom the allies purpose to try, have formed a suicide club. It is said that the club has held several meetings. The main idea is that its members will defeat justice by killing themselves, if justice gets too close on their trail.

Five Hundred Years Ago

New Europe Strangely Like a Very
Old Europe

What is happening now with regard to the parceling out of the countries in Europe into new racial divisions is very much like what it was 500 years ago. According to Sir Sidney Low, new Europe was strangely like a very old Europe. Five centuries ago there was then a united and independent Poland, including West Prussia and reaching as far as the Baltic. There was a kingdom of Bohemia embracing the Czech-Slovak countries, a kingdom of Hungary, a Ukraina, or Ruthenia divided off from Muscovite Russia, a separate Courland and Esthonia, a greater Serbia or Jugoslavia, a Greek kingdom occupying the rest of the Balkan lands, except the Dalmatian coasts and islands, which were under an Italian republic. Then time worked its slow but drastic changes. Most of these minor states were swallowed up in the four great imperial aggregates, Austria, Russia, Turkey and Prussian Germany. The war leaves the empires broken so that the map of the 20th century will show the medieval kingdoms and republics revived, and will strikingly resemble one which might have been drawn in the fifteenth.

Awkward For Hubby

Mme. Melba Tells an Amusing Story
Concerning a Young Married
Couple

Mme. Melba, who sang at the gala performance at Covent Garden during May, told an amusing story at a Red Cross entertainment recently.

It concerned a young married couple and a rich aunt from whom they had expectations, and who incidentally was fond of music.

Aunt came on a visit to the newly-wedded couple (said Mme. Melba) and wife told her that hubby had just recently made a record of her favorite violin solo on their gramophone.

The old lady was quite pleased, and naturally wanted to hear it.

"Well," said the young wife, "as a matter of fact, we haven't tried it ourselves yet, but I'll put it on."

She accordingly did so, and the record proved a great success, but unfortunately just after the solo was finished, with fatal clearness from the instrument came the following:

"Phew! If that isn't good for an extra few hundreds in the old girl's will, I'm a Dutchman!"

Big Increase in Fish Catch

Ottawa.—An increase of over \$800,000 in the total value of sea fish taken during the month of May this year, as compared with the same month a year ago, is shown by the monthly statement on sea fishing results issued from the Naval Department. The total value of sea fish at the point of landing on both the Atlantic and Pacific coasts during May this year was \$3,085,050, while in May, 1918, it was \$2,229,877.

Use Cuticura to Keep Your Hair From Falling

How many times have barbers given this advice to men who are losing their hair because of dandruff and scalp irritation. At night rub Cuticura Ointment into the scalp. Next morning shampoo with Cuticura Soap and hot water. A clean, healthy scalp means good hair.

Cuticura Soap 25c, Ointment 25c and 50c. Talcum 25c. Plus Canadian duties. Sold everywhere. For sample each free address: Cuticura, Dept. N, Boston, U. S. A.

Huge Vote For Building Ships

Thousands of Dollars Voted for
Public Works All Over
the Dominion

Ottawa.—In the House of Commons, the Minister of Finance, Sir Thomas White, tabled supplementary estimates totalling \$36,723,120, which will be voted by Parliament before prorogation. The chief item is one of \$10,000,000 for the construction of vessels in accordance with the government's shipping program. Many thousands of dollars are voted for public works all over the Dominion, and also for harbor and river improvements, including \$500,000 for a new dry dock at Esquimaux, British Columbia, and harbor improvements at Port Arthur and Fort William, Ontario, as well as at Toronto, Quebec, and St. John, New Brunswick. Of the amount to be voted \$23,494,256 is chargeable to current revenues, and the remainder to capital account.

Back to the Land in Belgium

The armistice had hardly been signed before a Belgian farmer had returned to his former farm on the battlefield near Poelcappelle, within a few miles of Ypres. He has already cleared, levelled, dug and planted with wheat several acres of his holding. A German "pill-box" of thick concrete forms a home for his family. This class of farmer that the Agricultural Relief of Allies Committee is helping to get back to the land by gifts of suitable English livestock. Many hundred head of cattle, pigs and poultry have already been distributed among the small holders in Belgium.

NERVOUS PROSTRATION

May be Overcome by Lydia
E. Pinkham's Vegetable
Compound—This
Letter Proves It.

West Philadelphia, Pa.—"During the thirty years I have been married, I have been in bad health and had several attacks of nervous prostration until it seemed as if the organs in my whole body were worn out. I was finally persuaded to try Lydia E. Pinkham's Vegetable Compound and it made a well woman of me. I can now do all my housework and advise all ailing women to try Lydia E. Pinkham's Vegetable Compound and I will guarantee they will derive great benefit from it."—Mrs. FRANK FITZGERALD, 25 N. 41st Street, West Philadelphia, Pa.

There are thousands of women everywhere in Mrs. Fitzgerald's condition, suffering from nervousness, backache, headache, and other symptoms of a functional derangement. It was a grateful spirit for health restored which led her to write this letter so that other women may benefit from her experience and find health as she has done. For suggestions in regard to your condition write Lydia E. Pinkham Medicine Co., Lynn, Mass. The result of their 40 years experience is at your service.

Germans Extend Franchise

Weimar.—The German national assembly is still debating the new constitution and has endorsed the article qualifying any male citizen, native or naturalized, who has reached the age of 35, for the office of president. The naturalization provision was included owing to the realignment of the German frontiers depriving many former German subjects of their nationality.

The constitution provides that the president shall be chosen by popular vote.

It is easier to see through some fat people than through some thin ones.

A smile is appropriate for both summer and winter wear.

THINK A
MINUTE

WHAT is your doctor's first question? Why does he suspect constipation?

Because 90% of his patients are suffering from ailments caused directly or indirectly by the action of poisons formed in a sluggish intestinal tract.

These body poisons are absorbed by the blood and carried all over the body until the weakest organ, unable to withstand the poisonous contact, becomes infected and refuses to act properly. Unfortunately it is usually not until then that the doctor is consulted and asked to treat the diseased organ.

The surest way of purifying the blood and preventing the formation of these destructive body poisons is to prevent stagnation of food waste in the intestinal tract—to prevent constipation.

Constipation is not a matter to be taken lightly or neglected. Nor is it either sufficient or safe to take castor oil, pills, salts, mineral waters, etc., in order to "force" bowel action. Such action does not cure constipation, it makes constipation a habit.

Nujol is entirely different from drugs as it does not force or irritate the bowels. Nujol prevents stagnation by softening the food waste and encouraging the intestinal muscles to act naturally, thus removing the cause of constipation and self-poisoning. It is absolutely harmless and pleasant to take.

Nujol helps Nature establish easy, thorough bowel evacuation at regular intervals—the healthiest habit in the world. Get a bottle from your druggist today.

Warning: Nujol is sold in sealed bottles bearing the Nujol Trade Mark. Ask druggists. Insist on Nujol. You may suffer from impostures.

The King And The Sailor

Jean Bart Was as Ready to Defy Etiquette as to Brave the Atlantic Gales

It was in the Palace of Versailles that Jean Bart, the noted privateer captain, was presented to the French King whom he had served so valiantly. He was the roughest of sea-dogs and as ready to defy etiquette as to brave the Atlantic gales. Jean got tired of waiting for the King, and, to the horror of the courtiers, pulled out his pipe and lighted up. Then the King came in, and, not knowing what else to do, told the gallant skipper that he might go on smoking. Then: "Jean Bart," said His Majesty, "I have just promoted you to the rank of Commodore."

"Sire," replied Jean Bart, "you have done the proper thing."

Deadlock at Kingston

Kingston, Ont.—Negotiations between the metal trades council, representing the Canadian Locomotive Co., have reached a deadlock, and the president has made a final offer of a 45-hour week, 54-hour pay, and the men have rejected the offer, insisting on a 44-hour week.

Minard's Liniment Cures Diphtheria.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

French Favored Cause Of Jews

Asked That Conditions of Absolute Equality Be Granted Jews In New or Enlarged States

Paris.—M. Pichon, foreign minister, replying to a communication from members of the chamber of deputies asking information as to the attitude of France in the peace conference with regard to the Jews of Poland, Rumania and other countries, declares that, from the beginning of the conference, the French government endeavored to secure consideration of the Jewish question and had asked that conditions of absolute equality be granted Jews in new or enlarged states. These efforts, M. Pichon says, resulted in the treaty already signed by Poland guaranteeing complete liberty and equality to Jews in political and religious matters.

Anarchist Plot In Rome

Central Part of Ancient Capital Was to Be Attacked By Bombs

Rome.—An anarchist plot to attack the central part of Rome by means of hand grenades and other explosives has been exposed by the arrest of sixteen of the conspirators four hours before the time fixed for carrying out their plans.

About the same time thirty anarchists motored to Fort Partalata, four miles from Rome, and tried to induce the garrison to join in an attack in the Rome market place. The soldiers fired on the anarchists and seized several of them. The others fled. The city remains tranquil.

Now, How Did That Happen?

When Harry was out walking with his father they caught sight of a notice in a shop-window which displayed the words, "Lost, half Persian cat; finder rewarded!" Harry gazed at the notice with a puzzled expression for a few seconds, and then turned to his father and asked: "But, daddy, how on earth have they lost half of the cat?"

He Caught 'Em All Right

He had experienced bad luck fishing. On his way home he called at the fish store and said to the proprietor:

"Just stand over there and throw me five of the biggest of those trout!"

"Throw 'em? What for?" asked the man in amazement.

"So I can tell the family I caught 'em. I may be a poor fisherman, but I'm no liar."

The New Way

A little four-year-old of Plainfield, who is most emphatically opposed to having her face washed, said to her grandmother the other day:

"I am not going to wash my face any more."

When asked for an explanation, she said, "I've decided to have it dry cleaned."

King Ludwig of Bavaria, who complains that he has no place to lay his head, evidently hasn't thought of resting it on the old Kaiser's bosom. —Detroit Journal.

Thirteen may be an unlucky number, but one sewing machine and twelve phonographs will do the work of one woman.

Want President at Home

Washington.—The President of the United States would not be permitted during his term of office to leave the country or to perform the duties of his office except at Washington, under a bill introduced by Representative Campbell, of Kansas, chairman of the house rules committee.

RED HOT JULY DAYS
HARD ON THE BABY

July—the month of oppressive heat; red hot days and sweltering nights, is extremely hard on little ones. Diarrhoea, dysentery, colic and cholera infantum carry off thousands of precious little lives every summer. The mother must be constantly on her guard to prevent these troubles, or if they come on suddenly to fight them. No other medicine is of such aid to mothers during the hot summer as Baby's Own Tablets. They regulate the bowels and stomach, and an occasional dose given to the well child will prevent summer complaint, or if the trouble does come suddenly will banish it. The Tablets are sold by medicine dealers or by mail at 25 cts. a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Fires Caused By Lightning

Warning of Approaching Electric Storms By High Wires

How to prevent loss from forest fires started from lightning is the problem being worked out by the Forest Service of Oregon, U.S.A. In the last twelve years there has been a loss of \$5,000,000 in Oregon and Washington from forest fires, of which 45 per cent. were of lightning origin. "Sixty per cent. of the loss was caused by lightning fires. In New Mexico 65 per cent. of the fires are of lightning origin, while 35 per cent. of the trees are killed by direct hits before they reach maturity. One of the methods proposed is to secure warning of approaching electric storms by high wires and other apparatus. On the first warning, patrol men can be got ready to fight the expected fires.

State of Ohio, City of Toledo, Lucas County—
Frank J. Cheney makes oath that he is senior partner of the firm of F. J. Cheney & Co., doing business in the City of Toledo, County and State aforesaid, and that said firm will pay the sum of ONE HUNDRED DOLLARS for any case of Catarrh that cannot be cured by the use of HALL'S CATARRH MEDICINE.
FRANK J. CHENEY.

Royal Message By Dirigible

First British Airship to Cross Atlantic Brought Greetings to Canada

Ottawa.—The first British airship to cross the Atlantic brought a message of good wishes from the King to the people of Canada. The message was addressed to His Excellency the Governor-General, and reads as follows:

"Buckingham Palace, June 28th, 1919.

"To His Excellency, 'The Duke of Devonshire, K.C., 'G.C.V., Governor-General and 'Commander-in-Chief of Canada.

"I take this opportunity of sending by the first British airship, R-34, to cross the Atlantic a message of good wishes to the people of Canada from the old country.

(Signed) "GEORGE, R.I."

The mere fact that a man doesn't call you a liar is no reason that he doesn't think you are one.

An Open Verdict

No Proof That Police Fired Fatal Shot in Winnipeg

Winnipeg.—That Mike Sokolowski came to his death during a riot on Saturday, June 21, as the result of receiving a bullet wound through the heart, fired by some person unknown, was the verdict of the coroner's jury sitting on the case. The verdict added that the evidence showed that a number of shots were fired by rioters and there was nothing to indicate that the shot which killed Sokolowski was fired by the police.

Wouldn't Stay Down

A British steamer, the Ravenstone, arrived in Boston harbor with a record of having been torpedoed and sunk three times. She was attacked 28 times and sank three submarines. Taking the example supplied by this ship and applying the slogan of the Salvation Army, "A man may be down, but he's never out," one can form quite a decent model upon which to build his life.

"If you must kiss a baby," says a medical writer, "the back of the neck is the safest place." We always thought that was what you lifted them up by.—London Opinion.

It is usually safe to say that when a child is pale, sickly, peevish and restless, the cause is worms. These parasites range the stomach and intestines, causing serious disorders of the digestion and preventing the infant from deriving sustenance from food. Miller's Worm Powders, by destroying the worms, corrects these faults of the digestion and serves to restore the organs to healthy action.

Austria Stands Alone

Paris.—The Austrian government has given up, at least for the time being, the idea of a union with Germany. Dr. Otto Bauer, the secretary for foreign affairs, declared in a speech delivered last week at the congress held by the council of workers, according to the Vienna correspondent of the Temps.

Saskatchewan contributed \$21,336, or a little more than one-half of the whole amount subscribed in Canada, on account of the agricultural relief of the allies fund, according to figures received from the deputy minister of agriculture at Ottawa.

When you hear a girl speak of a young man as a bear—well, you can draw your own conclusions.

A Ready Weapon Against Pain.—There is nothing equal to Dr. Thomas' Electric Oil when well rubbed in. It penetrates the tissues and pain disappears before it. There is no known preparation that will reach the spot quicker than this magic Oil. In consequence it ranks first among liniments now offered to the public, and is accorded first place among all its competitors.

Hindy Makes Appeal

Copenhagen.—Field Marshal Von Hindenburg, former chief of the German staff, has written Marshal Foch appealing for his support of efforts to prevent the extradition of the former German emperor. Von Hindenburg offered also to place his person "fully and absolutely at the disposal of the allied powers."

Labor Will Try the Polls

Winnipeg.—Leaders in the recent strike have not by any means given up the idea of aiming to secure the establishment of a six-hour day, according to J. L. McBride, business agent of the electricians' union and a member of the strike committee.

When asked how he would bring this about, he replied: "At the polls next November and in a constitutional way. When you start out to beat the law, you simply can't do it, and some of us always knew it."

Says a rural editor: "A smart man is never a success as a fisherman. We tried it ourselves."

Clogged Nostrils Open
Breathing Made Easy,
Catarrh Cured!

New Method Very Successful

It is a new method of treatment, that of medicated air, and cannot fail to be beneficial. It goes wherever air can go, thus reaching all the affected parts. It purifies as by fire, simply burning up the disease germs. Catarrh is a non-poisonous and healing agent; it therefore acts upon the mucous tissues of the throat, nasal passages, and bronchial tubes, destroying all microbe life, and at the same time heals up all the inflamed parts.

As a cure for Catarrh, Bronchitis, Asthma, La Grippe; as a strengthener for the throat, Catarrh is not to be equalled. It is a guaranteed cure, and is highly endorsed by prominent physicians who use Catarrh in their practice. Sufficient Catarrh for two months' use, price \$1.00; smaller size 50c, at all dealers.

Germany Does Not
Want Ex-Kaiser

Mueller Declared Former Ruler Was Dangerous to Country

Berlin.—Former Emperor William belongs in the pathological ward and is not wanted in Germany, declared Herman Mueller, majority socialist leader and whip in the national assembly, in a speech delivered before the majority socialist convention.

Herr Mueller, who is one of the most conservative of the Socialists, referring to the rumor that an attempt was to be made to bring about the return of the former emperor, warned the Prussians said to be interested in such a move, that a majority of the German people would not permit his return. The speaker declared the former ruler was dangerous to the country and blamed his voracity for Germany's misfortunes.

Herr Mueller's speech was received with cheers.

The conference voted unanimously in favor of a united German republic. Other action taken by the conference was:

It voted down the government project to create a fund of 1,000,000,000 marks to be obtained by adding an extra hour to the working day, the pay for which will go to the government.

It condemned the recent execution by the Bavarian government of Levine Nissen, Communist leader.

It voted in favor of the withdrawal of the German troops from Estonia and Lithuania.

It passed a resolution demanding the abolition of the death penalty.

Will Not Control
This Year's Wheat

Government Will Merely Restrict Speculation on Wheat Mart

Ottawa.—Hon. A. C. Maclean, acting minister of trade and commerce, being asked in the House if the Grain Exchange would be permitted shortly to engage in wheat transaction, said:

"At present it was not the intention of the government to prohibit or control trading in wheat in the cereal year 1919-20 on the grain exchanges in Canada. If the grain exchanges deal in wheat, it is to be expected, owing to the fact that this grain is not traded in upon the leading grain exchanges of the world, that regulations will be made operative so as to restrict purely speculative transactions."

Mr. Maclean being further asked as to the probable disposition of this year's wheat crop, stated that the question was much complicated by the delay in the United Kingdom and allied European countries in determining whether they are to permit open markets for the future, or whether control would be further continued. The exchange conditions, the American fixed price for wheat, shipping the probable exportable surplus of wheat-producing countries, and the general and world-wide financial and economic conditions are all very important and uncertain factors complicating the situation, and it was too early yet to determine with exactness their influence in estimating markets and prices for Canadian wheat of the coming crop. This uncertainty was applicable to all wheat-producing countries. The government realized the importance to Canada of the question of markets, particularly for Canadian surplus wheat, and was doing everything possible to ensure a fair share of the world's markets.

"Conceivably," he said, "the future might develop conditions in Canada necessitating direct and positive action, but in the meanwhile it is the view of the government that the open market should prevail."

Cleaning Up

More Material Left Behind by Teuton Than at First Imagined

As the cleaning-up process goes on over the Argonne-Meuse battlefield, it appears that a great deal more material was left behind by the departing Teuton than was at first imagined. The area covers some 480 square miles, and since the armistice a United States force of about 7,500 men has been steadily at work restoring the countryside as far as possible to normal conditions. From one-third of the battlefield it is estimated that more than \$5,000,000 worth of abandoned war material has been recovered. Bessignol Wood, for example, yielded several box-car loads of machine guns; artillery was left behind in places where it remained unnoticed until the cleaning up of the battle area reached them. Brass shell cases have been picked up until in one town a pile of about 900,000 stands as high as a three-storey house, and to walk round it is like walking round a city block. The Germans were undesirable tenants, but what they left behind goes a little way toward paying the rent.

Britain's Peace Day

London.—The government is making elaborate arrangements for national rejoicing on Saturday, July 19. The chief feature will be a march through London of over 18,000 men and women, representing all the British forces, the mercantile marine, and the forces of India, the United States, Japan, Belgium, China, Siam and other friendly powers have been invited to send representative detachments.

GIRLS! LEMON JUICE
IS A SKIN WHITENER

How to Make a Creamy Beauty Lotion for a Few Cents

The juice of two fresh lemons strained into a bottle containing three ounces of orchard white makes a whole quarter pint of the most remarkable lemon skin beautifier at about the cost one must pay for a small jar of the ordinary cold creams. Care should be taken to strain the lemon juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener, whitener and beautifier.

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quarter pint of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands.

Consider Bulgar Peace

London.—General Creten, commander of the allied forces in Bulgaria, has informed the Bulgarian premier that peace delegates from that country would be called to Paris soon, and that the Bulgarian government is invited to nominate a delegation, according to a Sofia dispatch to the Exchange Telegraph.

Mihard's Liniment Cures Colds, Etc.

Waited Forty-Nine Years

To Be Freed From Mailed Fist of Germans

Paris.—"We have waited 49 years for this moment," exclaimed Premier Clemenceau as he opened the fateful dispatch announcing that Germany would sign the treaty.

"For forty-nine years," he continued, "the mailed fist of the Reire (German trooper), who has governed Germany, has menaced the world. Whether the man's name was Bismarck or William II, it was still the same Reire of the middle ages, surrounded by soldiery and drunk with pride.

"Be careful; keep your powder dry. Be careful. Remind the world that it is living on a barrel of that powder.

"This Reire's dogma was that might is right, that a state's only obligation is its own interest, that treaties do not exist when they clash with the interest of a state, and get rich by any means. We know from witnesses who were at the side of William II, that when he learned of the Sarajevo tragedy he, who posed as a keeper of the peace, cried:

"The hour has struck. Now we shall see what an army is."

Use Airplanes in Pulp Survey

New York.—An airplane expedition to ascertain the value of wood pulp resources of Labrador sailed from New York for Nova Scotia. This party of forty is headed by Captain Daniel Owens, who served two years with the British air force. It is planned to take several photos of all the large forests and from these calculate the value of the wood pulp.

Four airplanes are to be used in the undertaking.

Fame is a plant that cannot be forced in a hothouse.

W. N. U. 1272

Fight Pictures
Unfit For Public

Columbus, O.—The Willard-Dempsey fight pictures may never be seen in public. In Ohio at least, they will not be placed on exhibition. The Ohio censor board officially rejected the pictures as being unfit to be exhibited in public. The probability of the pictures being shown in other states is believed to depend on what construction is to be placed upon the Rodenberg Act, which prohibits prize fight pictures being handled in interstate commerce.

To Suppress Sinn Fein

All Sinn Fein Organizations Proclaimed at Dublin Castle as Unlawful

Dublin.—A proclamation has been issued from Dublin Castle declaring all Sinn Fein organizations and Irish volunteers in the county of Tipperary unlawful associations.

This announcement is made in a memorandum by the chief secretary for Ireland, enumerating a series of crimes and offences in the past year and stating that as the measures already taken have failed to check the Sinn Fein's criminal activities "the government is compelled to suppress the organizations."

It is impossible to buy a friend that is worth the price.

A Sure Corrective of Flatulency.—When the indigestible food lies in the stomach it throws off gases, causing pains and oppression in the stomachic region. The belching or eructation of these gases is offensive, and the only way to prevent them is to restore the stomach to proper action. Parmelee's Vegetable Pills will do this. Simple directions go with each packet, and a course of them taken systematically is certain to effect a cure.

Hurrah for Standard

Editor Gleichen Call:

The reports are just in from the first canvasser from the Standard district and the reports shows that out of 37 farmers visited by the canvasser, 37 have pledged themselves to support the farmers' candidate, and every one have backed up their promise by five good Canadian dollars. This is what spells success for the Farmers' Independent Political movement. It is our firm belief that the farmers in every other district are just as much in earnest and just as willing to contribute to the farmers in the Standard district if the matter is simply presented to them in the right way by the man who goes out to make the canvass. Five dollars donation pays for each man's membership in the United Farmers of Alberta for one year and his subscription to the Farmers Paper for three years besides \$1 which goes into the fund for the Bow River Riding for defraying expenses of the committee and the candidate who will be nominated when the proper time arrives.

Yours respectfully,
W. D. TREGO,
Chairman Canvassing Committee.

The Tax Recovery Act

record of the Land Titles Office to be interested in any way in the land, will forthwith be notified of that fact by registered mail, and after a period of sixty days has elapsed from the expiration of the redemption period, a Return of the unredeemed lands will be submitted to a judge of the District Court, who, on being satisfied that due notice has been given and that all matters in connection with the proceedings are regular, shall make such an order as to transfer as he deems advisable and in accordance with this order the treasurer shall then issue transfer to any tax sale purchaser, on receiving from him payment of the balance outstanding and such transfer shall entitle the purchaser to an indefeasible title, except as to claims of the Municipality or the Crown. Any monies paid to the municipality over and above the taxes due, shall be paid to the person declared by an order of a judge of the District Court to be entitled thereto.

By comparing the procedure under the Tax Recovery Act with the provisions in regard to Tax Enforcement that have hitherto been in force, it will be noted that under the Tax Recovery Act it is only necessary for the municipality to obtain Abstracts of title and to send notice by registered mail, in connection with the lands which are sold and not redeemed, whereas under the forfeiture proceedings that have been in force under our Municipal Acts, it is necessary to obtain Abstracts of Title of all lands in which taxes are in arrears, to send notice by registered mail to all parties shown to be interested, then during the year allowed for redemption after the land has been forfeited, it is necessary for another set of abstracts to be secured and two more notices to be sent to each person shown to be interested in the land, and after all this trouble and expense the municipality in many cases is unable to collect any taxes whatever.

The Tax Recovery Act provides for the immediate sale of land for taxes, without waiting for a year as required by the forfeiture proceedings. If the land can be sold at all, this brings in the taxes immediately. If it cannot be sold, very little expense has been incurred. In addition to making provision where by Municipalities may obtain their taxes more quickly, the Tax Recovery Act provides a simple method whereby action may be taken at an expense that will not be more than one-third of what it was under the forfeiture proceedings set forth in different Municipal Acts, and if the land is worth the taxes the municipality gets results quickly, while if the land will not

sell, the municipality has not been put to any great expense.

The provisions of the Tax Recovery Act will come into force in the year 1920, and on and after the year 1920 the Tax Enforcement Proceedings provided for in the Municipal Acts will cease to be operative except insofar as proceedings instituted prior to the end of the current year are concerned.

Mr. Farmer, why not win that \$30 garden prize? It's up to you to get busy.

Fighting The Grasshopper

Farmers Should Undertake Cultural Control Measures This Fall

Farmers should continue the fight against the grasshopper pest just as long as the grasshoppers are damaging the crops, and should undertake cultural control measures this fall to prevent any danger of a grasshopper plague next year, said Dr. Cameron, of the Dominion Entomological Branch, when questioned as to how long the applying of poison bait should be continued in the grasshopper infested districts. Dr. Cameron has been giving valuable assistance to the Saskatchewan Department of Agriculture, in fighting the grasshopper pest.

"Grasshoppers are now entering the mature stage and are beginning to fly, but this does not signify by any means that they are ceasing to do damage. It may mean instead that they will leave the farms where they have already destroyed the crops and destroy crops of farmers who were congratulating themselves that they had escaped the plague. It is very important that as many as possible be destroyed before they begin laying eggs to develop into a fresh brood of grasshoppers next year.

"Paris green poison bait has proved by far the most effective measure in destroying the hoppers, although very good results have been obtained with the hopper dozers, and a combination of the methods has given the best results.

"In some parts of the province where grasshoppers have been doing damage a parasitic fly is doing the farmers material service in destroying the grasshoppers.

"During the last two weeks reports have been received from several districts, namely Glenewen, Rouleau and LaFleche, that the grasshoppers now ravaging the crops have been dying in large numbers.

"Investigation of this matter by Dr. Cameron, Dominion Entomologist, has shown that the cause of death is due to the work of a parasitic fly which lays its eggs on the grasshoppers. This fly is about the size of an ordinary bluebottle fly, slate-grey in color and clothed with long, strong bristles. These flies are first found flying on the wing in the early spring. From the eggs laid on the hoppers a maggot emerges which at once burrows into the grasshopper, feeding on its internal organs. The parasitic maggot is careful not to destroy any of the vital organs of the grasshopper until the latter has reached maturity.

"It would be advisable for those farmers who find the grasshoppers dying from apparently natural causes to make a close examination for the maggots of the parasite. The latter, when fully fed, migrate from the grasshoppers, now dead, and enter the soil. There they assume a chrysalis condition about an inch below the surface of the soil. They are then barrel-shaped and of a chestnut brown color and about one-quarter of an inch long. In this condition they pass the winter, the adult fly emerging in the spring. It is very encouraging to know that this parasite is now at work and it is not unlikely that it will finally play an important role in reducing the numbers of the grasshopper plague.

"Despite the fact that this parasite is present, the farmers will be well advised to undertake control measures of a cultural nature this autumn. All stubble land should be plowed to a depth of at least six inches. By this

PILES

Do not suffer another day with itching, bleeding, or protruding piles. No surgical operation required.

Dr. Chase's Ointment will relieve you at once and as a permanent cure you get a box; all dealers, or Edmondson, Bates & Co., Limited, Toronto. Sample box free if you mention this paper and enclose 20c stamp to pay postage.

method the eggs will be buried so that the hoppers find it difficult to reach the surface when the eggs hatch in the spring. Road allowances should be likewise treated. Discing and harrowing is also useful in that by this means the eggs are brought to the surface and exposed to climatic influences whereby they are killed during the winter."

Heads Alberta Police Force

Calgary.—It was announced from Edmonton that Chief Alfred Cuddy, of the Calgary police, had been named as head of the reorganized provincial police of Alberta. The police force was formerly under a commission, but with Chief Cuddy at the head it will now be directly under the control of the attorney-general's department. Chief Cuddy has been here for eight years and his loss will be a serious one for the city.

Sawing Wood With One Arm

For some months now no dispatch on the life of the former German emperor at Amerongen, Holland, has omitted to say something about his favorite exercise, which is said to be sawing logs of wood. The faithful correspondent who sends out these stories, or the loyal secretary who gives them to him, evidently is not sufficiently familiar with manual labor to know that sawing logs is an occupation which requires the use of two arms. The retired emperor, unfortunately, has but one. Is it mere vanity which directs that the world be offered this characteristically German camouflage, or is there a more sinister political design back of it? — Buffalo Express.

The War Idea

Farmer Smith was painting his barn battleship grey, and every so far he would mark off a fake window and smear black stripes down it.

"Are you crazy, Jim?" asked a neighbor, "what you doing that for?"

"Camouflage," was the prompt answer, "at a distance of fifty feet, tramps will think it's the county jail. Believe me, I'm larnin' something new from the war every day." — Hoard's Dairyman.

Gladness is appreciated only by those who know what sadness is.

How You Can Tell Genuine Aspirin

Only Tablets Marked With "Bayer Cross" Are Aspirin

If You Don't See the "Bayer Cross" on the Tablets, Refuse Them—They Are Not Aspirin

There is only one Aspirin, that marked with the "Bayer Cross"—all other tablets are only acid imitations. Look for the "Bayer Cross"! Then it is real Aspirin, for which there is no substitute.

Aspirin is not German, but is made in Canada by Canadians, and is owned by a Canadian company. Genuine "Bayer Tablets of Aspirin" have been proved safe by millions for Pain, Headache, Neuralgia, Colds, Rheumatism, Lumbago, Neuritis. Handy tin boxes of 12 tablets—also larger "Bayer" packages—can be had at any drug store.

Aspirin is the trade mark, registered in Canada, of Bayer Manufacture of Monoaceticacidester of Salicylic acid.

Says Prof. Schuecking of the peace treaty: "The document is simply awful." The professor is awful simple if he expected any other sort of document.—Washington Herald.

Countless have been the cures worked by Holloway's Corn Cure. It has a power of its own not found in other preparations.

Bolshevism Has Failed

Russia May Yet Be Great and Prosperous

The scheme of Bolshevism does not work. The nationalization of all industries is a fiasco. The Communist ideal leads—as it led in the state factories of revolutionary France—to misery and ruin. At last even those who lead realize their country's urgent peril. The led—the workers on whom experiments have been tried—have now for long been weary of it all. Now the appeal goes out for capital to return to Russia and the foreigner to come in and save Russia. It may not be too late—so long as Bolshevism and the crazy creed are overturned in time. Russia may yet be great and prosperous. But the clock has been put back and blood has flowed like water in learning what saner people know well enough. — London Daily Express.

Rainbow chasers get at least a run for their money.

WEAK MOTHERS REGAIN HEALTH

Through the New Blood Dr. Williams' Pink Pills Actually Make

No mother should allow nervous weakness to get the upper hand of her. If she does, worry will mar her work in the home and torment her in body and mind. Day after day spent amid the same surroundings is enough to cause fretfulness and depression. But there are other causes, as every mother knows, that tend to make her nerves run down. A change would benefit her jaded system, and rest might improve her blood so as to give the nerves a better tone. But rest and change are often impossible, and it is then that all worn-out women should take a short treatment with Dr. Williams' Pink Pills, which make new blood, rich with the elements on which the nerves thrive. In this way these pills restore regular health, increased energy, new ambition and steady nerve. There is a lesson for other women in the case of Mrs. Harry P. Snider, Wilton, Ont., who says: "Five years ago my twin babies were born, and I was left very weak and very miserable, hardly fit to do anything. The doctor gave me medicine, but it did not help me. Then I tried another doctor, but with no better results. One day I went home to my mother, telling her how miserable I felt, and that the doctor's medicine had not done me any good. Mother asked me why I did not try Dr. Williams' Pink Pills, and as I was glad to try anything that might help me, I got three boxes when I went back home. By the time these were used there was no doubt they were helping me, and I got three more boxes. But I did not need them all, for by the time the fifth box was used, I was entirely cured, and never felt better in my life. Now when I hear people talk about feeling weak or miserable I always recommend Dr. Williams' Pink Pills, and tell what they did for me, and in similar cases I shall continue to recommend them."

At the first sign that the blood is out of order, take Dr. Williams' Pink Pills, and note the speedy improvement they make in the appetite, health and spirits. You can get these pills through any medicine dealer, or by mail at 50 cents a box or six boxes for \$2.50 from The Dr. Williams' Medicine Co., Brockville, Ont.

The moralist no more thinks of putting all his ideas into practice than the shoemaker does of wearing all the shoes he makes.

Worms in children, if they be not attended to, cause convulsions, and often death. Mother Graves' Worm Exterminator will protect the children from these distressing afflictions.

Buried Hatchet At English Camp

"Wedding" of the Stars and Stripes and the Union Jack

Bellingham, Wash.—Wrapped in British and American colors, a hatchet was buried with ceremony by 400 Masons from Victoria, B.C., Friday Harbor, and Bellingham, at English Camp, San Juan Island, the scene of complications which threatened war between Great Britain and the United States in 1859. As the hatchet was placed in the ground a staff bearing on its apex a white dove, typifying peace, was raised over it.

A feature of the program was the "wedding" of the Stars and Stripes and the Union Jack on the flagstaff of the old English blockhouse to the accompaniment of "America," "O, Canada," the "Star Spangled Banner," and "The Maple Leaf For Ever," by a band and the assemblage.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

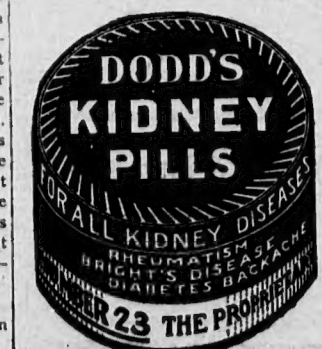

Hun Call Treaty "Scrap Of Paper"

Extortionate Pressure Renders Signature Worthless, Says the Vorwaerts

Berlin.—The Berlin Vorwaerts, majority Socialist organ, described the peace treaty as "a scrap of paper."

"Extortionate pressure renders signature of the peace treaty worthless," said the Vorwaerts. "We must never forget it is only a scrap of paper. Treaties based on violence can keep their validity only so long as force exists. Do not lose hope. The resurrection day comes."

The Prussian Kreuz Zeitung, in an editorial headed "Finis Germania," declared that "it is our duty not to permit the Prussian spirit to be crushed."

DODD'S KIDNEY PILLS

FOR ALL KIDNEY DISEASES

BRILLIANTLY EFFECTIVE

DIABETES BACKACHE

23 THE PRO

SUNDAY SCHOOL LESSON

LESSON FOR JULY 20

THE LORD'S SUPPER

1. The institution of the Lord's Supper (Matt. 26:26; 1 Cor. 11:23).

1. Time: It was on the night of the betrayal of Jesus, just after the betrayer had been announced.

2. The circumstances: In connection with the eating of the Passover. At the command of Jesus the disciples made ready the Passover, and while they were eating, Jesus took bread, blessed it and gave it to the disciples.

3. Elements: (1) The bread. This doubtless was the common bread of the Passover feast. (2) The cup. This cup consisted of the fruit of the vine.

11. The significance of the Lord's Supper (Matt. 26:26-28; 1 Cor. 11:24-26).

Jesus took natural and literal elements and made them to be symbols of his own body and blood. Just as our bread and drink are assimilated into brain and brawn, becoming an integral part of our body, so by means of these symbols the communicant partakes of Christ. He becomes a part of us and we are in him. It is both a memorial and a prophecy.

1. A memorial of the Lord (Luke 22:19). When he went away he left the bread and the cup for the disciples by which to remember him. Those who love him will desire to keep sacred this memorial.

2. To show the Lord's sacrificial death (1 Cor. 11:26). He did not die as a hero or as an example of unselfish devotion, but as a substitutionary ransom. On the cross he made expiation for our sins.

3. It is a guaranty that our sins are forgiven (Rom. 4:25). When the believer partakes of these elements his faith is confirmed. "It is a signet of the Son of God attached to redemption."

4. Through them the believer receives Christ (1 Cor. 10:16). He thereby participates in the body and blood of Christ, becoming a member of his body. Christ liveth in the believer (Gal. 2:26). The Holy Spirit communicates the life of Christ to believers, making them one body, joined together (Eph. 4:16). This union is illustrated by the figure of the human organism (1 Cor. 12:12-27); the vine and branches (John 15:1-8); the husband and wife (Eph. 5:25, 26); we are one bread and one body (1 Cor. 10:17).

5. A forward look to a completed redemption (1 Cor. 10:26). When faith is exercised in Christ, redemption begins, and its completion will take place at the coming of Jesus Christ (1 Thess. 4:16, 17). The bread and the cup constitute the keepsake of the Lord until he returns. These elements possess an immense psychological value both as a memorial and a prospect.

III. Qualifications for Participation in the Lord's Supper (1 Cor. 11:27-34).

1. A proper apprehension of its meaning (v. 27). Eating and drinking "unworthily" does not refer to the demeanor of the communicant, but to the failure of the communicant to grasp its meaning and importance. Therefore, to thoughtlessly engage in this service is to do it "unworthily." Only a regenerated person can discern the Lord's body (v. 29, et. 2:14). Faith in the integrity of Christ's person and work is essential. Anyone who does not believe in the absolute deity of Christ and his vicarious atonement is an unworthy communicant.

2. Church membership (1 Cor. 11:18-22). The Lord's body is the church which is composed of regenerated men and women, united to Jesus Christ as head and to each other as members of that body by the Holy Spirit.

3. Orderly walk. The disorderly should be debarred from the Lord's table, examples of which are the following: (1) Immoral conduct (1 Cor. 5:1-3). It is perilous to the individual who is guilty of immorality to approach the Lord's table (v. 30). Sickness and death are oftentimes visited upon such. This explains why some are mysteriously taken away in death. (2) Heresy (Titus 3:10; John 4:2, 3). (3) Schismatics (Rom. 16:17). Those who are causing divisions in the church should be debarred.

Big Profits on War Insurance

London.—Replying to a question in the commons, Sir Auckland Geddes, minister of national service and reconstruction, stated that the government had made a profit of approximately £16,000,000 from premiums on shipping war risk insurance.

A superstitious man is the one who imagines that others think as much of him as he does himself.

Light is a symbol of truth, unless it lies in a woman's eyes.

May Enlarge Force Of Mounted Police

Extensive Barrack Buildings Being Erected at Headquarters at Regina

Regina, Sask.—Extensive new buildings are to be erected on the R.N.W.M.P. square at headquarters of the famous force here. While Commissioner Perry announced that the buildings would go up in the near future and would entail a large expenditure, he stated that he was not in a position to give many details.

The new buildings, he said, would be placed on the south side of the square. Officers' quarters and large barracks will be erected. This will entail tearing down or removal of the last of the old wooden buildings, including the historic guard room where Louis Riel expiated his crimes on November 16, 1885. The guard room was the first frame building erected on the ground. The other original buildings were made in Quebec in 1882, sent here in sections and then put together by men of the force at the rate of one each day.

While no official information could be secured, it has been stated that the force will be increased to 3,000 all ranks. Commissioner Perry stated that new recruits were arriving rapidly from many points, and total strength now is in the vicinity of 1,300.

Minard's Liniment Cures Garget in Cows.

Crossing Alarms Needed

Winnipeg.—Finding that Rose Keroach and Lorenzo Greco came to their death owing to the automobile in which they were travelling coming in contact with the Canadian Pacific railway train No. 114 from Winnipeg Beach, on the night of July 4, the jury brought in a recommendation that the railway company be requested to put into effect immediately a bell signal system that will ring at each intersection two or three minutes before the approach of a train, or, as an alternative, automatic gate arms that will shut off the street during the passage of trains.

Patience is the right bower for success.

It is awful hard for a genius to keep his name on the pay roll.

Asthma Is Torture.—No one who hasn't gasped for breath in the power of asthma knows what such suffering is. Thousands do know, however, from experience how immeasurable is the relief provided by that marvelous preparation, Dr. J. D. Kellogg's Asthma Remedy. For years it has been relieving and curing the most severe cases. If you are a sufferer do not delay a day in securing this remedy from your druggist.

We wonder if the Lord loves a cheerful giver as much as the cheerful giver loves himself.

Some poets are always amusing, but not necessarily funny.

HOW TEDDY LOST THE BEAR

They say a sore corn interfered with his speed. Always apply Putnam's Corn Extractor. For fifty years it has been curing corns and warts. "Putnam's" never fails. Use no other, 25c at all dealers.

Gallipoli Farewell Song

Speaking at Newport, Isle of Wight, Brig.-Gen. H. S. Davey, who was in the last ship to leave Gallipoli at the evacuation, said as soon as the order to be silent ceased the British troops sang, "Good-bye, Johnny, I must leave you, though it breaks my heart to go."

"This was supposed to have been a beaten army," he said. "You may kill the British soldier, but you can never beat him. He has a spirit which is indomitable."

When a gallant man is asked to guess a woman's age, he first makes a silent guess and then knocks off one-third.

A silver lining may have a copper cloud.

Minard's Liniment Cures Distemper.

Sulphur-Laden Rain in Yukon.—A sulphur-laden shower of rain, a rare phenomenon, fell over Dawson City, Yukon, and vicinity a few days ago. A thirty-minute downpour left pools and sidewalks streaked with a yellow substance, which chemists declare is sulphur, and which they think was carried in the upper atmosphere currents from some distant volcanic eruption. A similar precipitation has been reported at Eagle, a hundred miles north of Dawson, and also in northern British Columbia.

Whiskey is one of the rules that declines to work both ways. It provides headaches, but headaches won't provide whiskey.

Shoes are the most serviceable, most comfortable, most economical shoes for romping kiddies—for girls who help mother about the house—and for boys who work with father in the fields.

are also made for men and women; for work and play; for every-day and Sunday wear.

Ask your dealer for **FLEET FOOT**. The name is stamped on every pair.

Would Purchase British Dirigible

United States Seeks Model Airship for Practice and General Training

New York.—Purchase by the United States of the R-34, the big British trans-Atlantic dirigible, or its sister ship, the R-33 as a working model for dirigible building here was urged by Henry Woodhouse, chairman of the dirigible balloon committee of the Aero Club of America in a statement issued here. Mr. Woodhouse added the army and naval aeronautical experts favored the plan.

The R-34 and R-33, he said, could be used as a pattern in building larger airships in the United States, and as a practice ship for training of personnel for rigid airship service.

Bringing Him to the Point

Mary: George: I have heard you spoken of frequently as a successful business man.

George: I am that. Why? Mary: Well, considering the fact that you have been visiting me for three years, I think you should maintain your reputation and talk business.

"The German delegates are now digesting the peace treaty," says a dispatch. No wonder Von Brockdorff-Rantzau looks sort of green around the gills.—Washington Herald.

The same old sins and sinners occupy the stage of life, but they furnish a multitude of variety shows.

Strike Statistics for Canada

Ottawa.—According to the Labor Gazette, the official organ of the Department of Labor at Ottawa, at the beginning of May the percentage of unemployed among members of trade unions was 4.38, as compared with 5.62 at the beginning of April.

I fell from a building and received what the doctor called a very bad sprained ankle, and told me I must not walk on it for three weeks. I got MINARD'S LINIMENT, and in six days I was out to work again. I think it the best Liniment made.

the facts about SHORTHORN CATTLE? The breed for the farmer or rancher. Write the Secretary for a FREE PUBLICATION, and get your name on our free mailing list. DOMINION SHORTHORN BREEDERS' ASSOCIATION. W. A. Dryden, Pres., Brooklyn, Ont. G. E. Day, Sec., Guelph, Ont.

CHILDREN NEED HELP

Spanking doesn't cure bed-wetting—the trouble is due to weakness of the internal organs. My successful home treatment will be found helpful. Send no money, but write me today. My treatment is equally successful for adults, troubled with urinary difficulties. MRS. M. SUMMERS, Box 42 Windsor, Ont.

MONEY ORDERS

It is always safe to send a Dominion Express Money Order. Five dollars costs three cents.

The Bottom Of The Sea

The bottom of the Pacific ocean—approximately six miles below the surface—is an exceedingly wet spot, but the "wettest place upon earth" in accordance with the usual meaning of the term, is Cherra Punji, in Assam, India. Here the rainfall averages 458 inches, a deluge of 300 inches falling during the summer months. This is a summer average of three inches a day, but more than 30 inches a day have been recorded on five successive days, approximately 150 inches falling in 120 hours.

Discuss Formation Of Farmers' Party

Winnipeg.—Future political action was discussed at a session of the Canadian Council of Agriculture. It was ultimately decided that the question of making the political action that has been taken already in the various constituencies in Alberta, Saskatchewan and Ontario federal in scope be left to the provinces to decide when farmers' political conventions are held. Hitherto only district conventions have been held in the various constituencies. The United Farmers of Alberta have selected July 26 as the date for their provincial convention.

Co-operative action by the Dominion and provincial governments to meet the feed shortage in Alberta was suggested. In a message sent to Ottawa the council strongly urged the Dominion government to investigate the matter and take immediate action.

Reports from the different provinces with regard to political action were received, and considerable time was devoted to discussion arising from them. No definite steps on the question of political action was taken at this session, however.

In his report J. B. Musselman, secretary of the Saskatchewan Grain Growers' association, suggested that the time was opportune for calling a convention in which the different provinces which have taken independent political action would be represented. He said that steps should be taken toward consolidating the movement, which heretofore has been confined to the provinces, into a federal one.

An invitation to attend the Liberal convention at Ottawa in August has been reached by the council and was under consideration. No decision was given as to whether or not the invitation would be accepted.

Labor Unrest In Italy

Repression of Disorders By Military Methods Resented By Labor Leaders

Rome.—The chamber of labor has proclaimed a general strike as from midnight Tuesday as a sign of protest against the police and military measures adopted by the government to prevent further disorders. The chamber of labor maintains that these measures were adopted to prevent the lowering of the price of necessities, as demanded by the people.

The strike was not quite general, because only the Popolo Romano published the decision of the chamber of labor to call a strike.

The food shops were crammed with people buying provisions in fear of being caught with scanty supplies.

Minimum Wage for Office Help

Winnipeg.—The work of the Manitoba minimum wage board is being brought to a close so far as the fixing of minimum wages is concerned, with the announcement of a proposed minimum wage of \$12.50 per week to women in offices, and \$12 to female help in theatres.

It has covered approximately 6,000 women in industry in Winnipeg, and has affected about forty industries. Dr. W. J. McMillan, chairman, sent in his resignation to the government, and it has been accepted.

Germans Ratify Treaty With Very Bad Grace

Weimar.—In the debate which preceded the vote of the national assembly ratifying the peace treaty, some strong sentiments against the terms were expressed, and 99 deputies abstained from voting on the resolution to ratify the treaty. Most of the ministers were present at the meeting of the assembly, and there was a full attendance of deputies. Dr. Hermann Mueller, the foreign minister, in introducing the government bill, explained that hastening of the ratification order would bring about the lifting of the blockade.

"We are about to enter upon a 40 years' march through dirt," he said. "I can find no other term for the path of suffering fulfillment of the treaty prescribed for us."

Dr. Peter Spahn, leader of the Catholic centre party, said:

"We agree to the treaty under hard compulsion, to save ourselves from anarchy and to preserve the fatherland from internal ruin."

Herr Kreizing, Socialist; Professor Schuecking, Democrat; Dr. Traub, national party, and Herr Kahl, people's party, all spoke violently pro-

To Limit Troop Trains

Winnipeg.—Winnipeg is to be made the military dispersal area for the entire West, and no more troop trains will run further than this city and those carrying soldiers from the Olympic go westward on Saturday, it is semi-officially announced. The reason given is the comparatively small number of troops that will have to be handled from now on. This will be so small that it is considered the dispersal work could quite well be done here and that there is no longer any necessity for keeping open the dispersal offices that have been established west of here. Among the dispersal area headquarters that will be closed under the new regime will be those of Saskatoon, Regina, Calgary, Medicine Hat, Edmonton, Revelstoke, Victoria and Vancouver. The Brandon, Man., office also will be closed up.

When troops have been discharged at Winnipeg they will travel to their destinations on ordinary passenger trains.

Many Labor Candidates

Labor Party In Winnipeg Will Try for Victory at the Polls

Winnipeg.—At a largely attended meeting of the Labor party, over which S. J. Farmer presided, it was decided to nominate candidates for every seat in Winnipeg and the territory immediately surrounding the city for the Dominion parliament and the provincial legislature, also to nominate candidates for the mayoralty and every seat on the city council and on the public school board.

A convention is being arranged for August.

Vaudeville, the Ever Popular

That visitors to the Saskatoon and Regina fairs will have an opportunity to witness a performance of the Pantages unequalled vaudeville will be welcome news to many fair-goers. Pantages will offer in the above cities precisely the same program that plays Minneapolis, Winnipeg, Seattle, San Francisco, Salt Lake City, Los Angeles and the largest American cities, and should prove a big added attraction to the already strong attractions offered.

Some Sidelights on Bolshevism

New York.—The arrest of President Wilson and J. D. Rockefeller, the opening of all jails and the formation of soviet organizations throughout the country to take over the government were advocated in the anarchistic bulletin, according to Archibald Stevenson, who produced a copy of the bulletin at the hearing of the Lusk investigating commission.

Urge Peace Quickly

Rome.—Premier Nitti, in a speech before parliament, urged that the peace negotiations be concluded, and that friendly relations with the allies, especially France, be maintained.

Hidden Bravery To Be Rewarded

Recommendations for Awards Must Be Sent to Ottawa By End of August

Ottawa.—Officers and soldiers of the Canadian Expeditionary Force who displayed gallantry while escaping or attempting to escape from the enemy, or who rendered exceptional services whilst prisoners of war or interned, are eligible for a reward.

An order of the Militia Department just issued states that recommendations for such reward may now be submitted. The facts supporting each recommendation must be substantiated by statements of evidence from at least two witnesses who have first-hand knowledge of the case, and should reach militia headquarters before August 31. Officers and soldiers who are still serving should submit their claims through the usual official channels. The claims of those who have been demobilized should be presented through the officer commanding the military district in which they live.

Fall Harvesting Starts In Ontario

Crops on the Whole Are Very Poor This Year

Toronto.—Fall wheat harvesting has already commenced in a few counties, according to the Ontario crop report, issued by the department of agriculture.

Owing to the length of straw, some of the grain has been knocked down. In some sections, fears were that grain was ripening too fast, but the yield will be higher.

Winter rye is ready for the binder. Crops on the whole are very poor. Some sections report practically a failure. The fields are uneven, and on account of the dry weather, grain is heading out at a foot and less in height.

Failed To Get Knighthood

Charles Hannan Asserts He Got No Reward for Devising the Smoke Box Screen Defence

London.—Charles Hannan, the author, has issued the text of curious correspondence between himself and the government regarding his claim to be an inventor of smoke boxes against submarine attack.

Mr. Hannan claims his invention was adopted, but his stipulation that the reward should be a "good old-fashioned knighthood and pension equivalent," was ignored.

In February he was informed "it was not found possible to include your name in the present honors list, but the next one is prepared, you shall again receive consideration."

However, no knighthood was forthcoming, and Mr. Hannan now presents the correspondence to the public.

Bolsheviks in Austria

Basel.—Detachments of Hungarian Bolsheviks are penetrating lower Austria, according to dispatches from Vienna. Nearly five thousand Bolsheviks are concentrated in the region of Altenburg and Neustadt, supposedly with the intention of moving against Vienna and Neustadt.

Anarchist Plot Exposed

Rome.—An anarchist plot to attack the central part of Rome by means of hand grenades and other explosives has been exposed by the arrest of 16 of the conspirators four hours before the time fixed for carrying out the plans.

About the same time 30 anarchists motored to Fort Pratolara, four miles from Rome, and tried to induce the garrison to join in an attack in the Rome market place. The soldiers fired on the anarchists and seized several of them. The others fled. The city remains tranquil.

Austria to Get in Big League

Paris.—Austria will be admitted to membership in the League of Nations as soon as the allied and associated powers consider that she possesses a responsible government with both the will and power to fulfill its international obligations. The Austrian peace delegation has been so informed in a reply from the supreme council to an Austrian plea for immediate admission to the league.

Troops Overseas Now Total 32,000

London.—With the sailing of the Carmania July 5, with 2,954 troops, and the sailing of the Tunisian on the same day with 268 troops, 255,413 Canadians have been repatriated since the date of the armistice.

The number of Canadians overseas, both in the British Isles and France, is now approximately 32,000. This, of course, includes hospital staffs.

U. S. Marshall Makes Big Seizure

Marten and Beaver Must Not Be Trapped Before 1921 to Prevent Depletion

Dawson, Y.T.—Seven hundred and fourteen marten skins valued at approximately \$25,000 were seized at Eagle, Alaska, by John Powers, deputy U.S. marshal, acting under instructions from the justice and post office department. Ten days ago 690 beaver skins valued at \$7,000 to \$10,000 were seized at Tolovana, Alaska prohibits the trapping of marten and beaver before 1921 owing to the threatened depletion of these animals.

The marten skins were shipped by the mail from Tolovana, addressed to a Tacoma company, some being enclosed in bear skins and other low-priced furs. They were seized on the steamer Alaska and are being returned to Fairbanks to await selection of a grand jury.

A penalty of \$200 and confiscation is provided for the illegal possession of each skin.

British Army Won The War

Emphatic Statement By Sir Douglas Haig on British Army Achievements

London.—Field Marshal Haig, receiving the freedom of Newcastle, deprecated the tendency to minimize the British army's achievements in the war.

"It is right to speak of our allies," he declared, "but it was the British army that won the war; it was Britain that bore the brunt of the fighting in the last two years. I hope everyone will realize the fact and stick by the fellows who fought and suffered and their dependents."

Many Jews Killed

Ukrainian Anti-Bolshevik Commander Shows Cruelty

London.—Many Jews have lost their lives in the course of the operations between the Russian soviet forces and those of General Gregoroff, commander of the Ukrainian anti-Bolshevik army, which has been fighting its way northward from the Black Sea. Cecil Harmsworth, under-secretary for foreign affairs, said in the house of commons in replying to a question, General Gregoroff, the under-secretary said, was stated to be strongly anti-Jewish in his sympathies.

Alberta Ranchers Hurt by Reports

Calgary.—While there will be dire need for immediate action on the part of the federal and provincial authorities with regard to the shortage of feed in Alberta and Saskatchewan, the report from Winnipeg that half a million head of cattle were facing starvation is entirely erroneous and misleading. Every stockman in the country realizes the seriousness of the situation, but reports such as these they feel will do immeasurable harm.

Veterans Will Take Action

Winnipeg.—Drastic proposals for making profiteers refund excess profits to the national treasury, for reducing the high cost of living and keeping the cost of the necessary commodities of life at a reasonable figure, and for ensuring for labor a fair return on the capital actually used, are to be made at the Dominion convention of the Army and Navy Veterans' association, at Montreal, July 23, by the Winnipeg delegates, according to a lengthy resolution handed out to the press.

Dutch Keeping in Dark

The Hague.—The Dutch government flatly refuses to issue a statement on its position in the event the Allies demand extradition of the former kaiser. The press and public do not believe such a demand is to be expected for, in their view, it would not be legal.

It is not expected here that extradition will be granted, as Dutch treaties and the Dutch law forbid such action, and the government has stated frequently that it will act according to law and treaty.

"Black Watch"—The Best Black Plug Chewing Tobacco on the Market

Hun Mob Releases Prisoners

Berlin.—A mob attacked the castle and the detention prison at Hanover and released all the prisoners in the buildings. The guards, it is said, surrendered their arms without resistance. Some fighting occurred between the crowds and government soldiers.

Victory Day Declared Holiday

Ottawa.—Saturday, July 19, has been officially fixed as a public holiday for the celebration of peace. The date coincides with peace day throughout the empire.

Britain Has Rivals Amongst Colonies

Preference Within the Empire Only Against Foreigners

London.—In the house of commons R. P. Houston, member for the West Tenth division of Liverpool, asked why the South African government had recently placed in the United States orders for 44,000 tons of rails, 1,000 cars and 250 trucks, and in the U.S. and Canada orders for 70 large locomotives instead of in Great Britain, in view of the necessity of employment of the people here and of maintaining Britain's export trade.

Hon. L. C. S. Amery, under-secretary for the colonies, said some of these orders had been placed before the armistice had been signed, when it was impossible for Great Britain to supply railway material. British offers respecting the price and date of delivery of the 70 locomotives had been so unfavorable that South Africa had been obliged to go further afield. He was glad to say 40 of them had been ordered in Canada.

Mr. Amery continued that in view of Mr. Houston's question, which seemed doubtless to unintentionally imply that it was undesirable that the South African government should purchase material from Canada rather than Great Britain, he recalled that a policy on which the government of the empire were agreed was that of preference in contracts for produce and manufactures of the empire, and not merely of the United Kingdom.

Great Britain could not expect preference from other empire governments, except as against foreign countries. Mr. Amery said he understood the South African government actually had done its very best to place orders in Great Britain and had negotiated at length with manufacturers.

Reds Prepare To Evacuate Petrograd

Allied Powers Will See Kolchak Movement Carried Through

Washington.—Definite information that the Bolshevik authorities are planning to evacuate Petrograd has been received in official circles here. Decision to quit the capital was said to have been violently opposed by some elements of the government.

Paris.—Approval of a plan for a concerted attack upon Petrograd by Finnish forces and the troops of the Kolchak government at Omsk, was given by the council of five.

A joint note has been sent the military attaches of Great Britain, France, United States and Italy at Helsinki, Finland, instructing them to support the Finnish government, if it decided to accede to the request of Admiral Kolchak to assist him in the campaign.

There is no indication that the allied and associated powers propose to go further at the time in helping Kolchak's plan, but their action in supporting the Finns is regarded as equivalent to assurances that they will see the Kolchak movement carried through.

Helsinki.—It is reported that all foreign embassies, legations and consulates in Petrograd have been occupied by Bolshevik forces. The archives have been seized, it is said, and those in charge have been arrested and handed over to an extraordinary committee dealing with charges of espionage against the soviet government.

Has No Plans for His Future

Toronto.—Sir Thomas White, who is at his home in Toronto for a few days, stated that reports which have appeared and are appearing in the press, to the effect that he had been offered and accepted an executive position with some railway corporation or bank, or life insurance company, were entirely without foundation and were unfair to the men occupying the positions which have been mentioned. The minister stated that he had made no financial plans whatever for the future.

Mark Drops Again

Berne.—The German exchange here, which in a few days after the signing of the peace treaty rose from 35 francs for 100 marks to 51 francs, has lost most of the gain, and one hundred marks now are quoted at 37 francs. Austrian crowns, after a similar brief recovery, dropped from 21 francs for 100 crowns to 17 francs.

No Peace Yet

Ottawa.—Ratification of the peace terms by Germany does not have the effect of freeing paroled aliens in Canada. The acting minister of justice said that there will be no change before the peace treaty is ratified by Great Britain. Afterwards the question will be considered.

W. N. V. 1272

Wilson Addresses The U. S. Senate

Dutch Resent Note

Paris.—The council of five received a reply from Holland in answer to the council's note regarding the reported escape from the Island of Weirengen of the former German crown prince. The Dutch note, in what were said to be rather curt terms, pointed out that the rumor of the escape was unfounded and expressed surprise at the warning given by the council.

The Dutch government, the reply added, is conscious of its international obligations and must be left to exercise its sovereignty as it sees fit.

Grampian Strikes Iceberg

Two of Crew Were Killed and Two Injured

St. John's, Nfld.—Two men were killed and two injured when the Allan liner Grampian, Montreal for Liverpool, collided with an iceberg off Cape Race Thursday night. The steamer, with 750 passengers and a crew of 350, arrived here for repairs.

The killed and injured were members of the crew, who were asleep in the bow of the steamer when she struck. Virtually all the passengers were awake; but although there were more than 500 women and children aboard, there was little excitement and no panic.

That the Grampian did not suffer the fate of the Titanic, with considerable loss of life, is believed to have been due to the decision of the captain to strike the iceberg bow on instead of taking a glancing blow on the side. The berg, which was very large, was encountered 45 miles off Cape Race in the early evening. When it was sighted through the fog it was too late to clear it, although the ship was proceeding slowly.

The captain said he realized that a glancing blow, which would tear through the ship's side, would sink her. The course was changed and the Grampian struck the berg squarely head on. The entire fore part of the ship was smashed in above the water line, the stem being driven back nearly 40 feet. The vessel was undamaged below the water line, however, as the portion of the berg which she struck proved to be an overhanging shelf.

It was found that the liner was taking no water and she was headed here, steaming through the night against a heavy gale, which caused anxiety among those aboard. When the Grampian arrived, mariners said, she was the most "berg beaten" that had ever come to this port. Repairs will take several weeks, and it is expected that the passengers will be transhipped to another ship.

Raising the Giant Flagstaff

A Douglas fir furnished a giant flagstaff 215 feet high, weighing 18 tons, which was presented four years ago by the British Columbian government to Kew Gardens, near London. The mighty flagstaff is at last to be erected, by Canadian hands.

Washington.—The peace treaty with its League of Nations covenant, was laid before the senate by President Wilson in an address accounting to the country for his part in the negotiations at Versailles.

The league, declared the president, was born of the conviction of practical statesmen that an international concern had become a world necessity to end the old order and guarantee civilization. He asserted that in such a concern the world looked confidently to the United States for leadership, and added that while the treaty might not be exactly as the United States delegation would have written it, no vital principle had been sacrificed by the necessary compromises. The senate, already divided in a bitter fight over this league proposal, received the President with cheers and listened to his words in grave silence. When he had concluded there was another burst of cheering until he had passed out of the chamber and had gone to his capital office, where he talked for an hour with senators who wished to ask about specific features of the treaty or of the negotiations.

In these conferences the President discussed freely such subjects as the disposition of Shantung, the German indemnities and Irish freedom. In his address, however, there was no direct reference to many of the questions around which senate debate has centered, the President declaring he could not construe details of the treaty in a short address. He did not directly mention the Monroe doctrine, Shantung, or the obligations assumed under article 10 of the league covenant, nor did he allude to the proposal to write reservations into the ratification. He asserted also that he would be given opportunity to discuss details later, either with the whole senate or the foreign relations committee.

"My services and all the information I possess," said Mr. Wilson, "will be at your disposal and at the disposal of your committee on foreign relations at any time, either informally or in session, as you prefer, and I hope that you will not hesitate to make use of them."

United States isolation, the President asserted, was ended 20 years ago when the war with Spain put the nation in partial control of Cuba and the Philippines. But we have not exploited them, he continued; we have been their friends and have sought to serve them. There can be no question of our ceasing to be a world power. The only question is whether we shall accept or reject the confidence of the world. The stage is set, the destiny disclosed. It has come about by no plan of our conceiving, but by the hand of God, who has led us into this way. We cannot turn back. We can only go forward with lifted eyes and freshened spirit, to follow the vision.

Replace U.S. Troops in Siberia

San Francisco, Cal.—Replacements for American troops in Siberia will be rushed to Vladivostok on a special transport from here July 26, it was announced at headquarters of the western department of the army.

Facing Terrible Cost Through High Taxation

Berlin.—Germany is to quickly return to a peace time financial system, said Matthias Erzberger, vice-chancellor and minister of finance, speaking at Weimar before the German national assembly. Among other things, the payment of grants to men who are unemployed will be reduced, it was indicated during his address.

"The empire's needs must be divided henceforth between home needs and indemnities," he said.

"The burdens of taxation will reach an absolutely terrible height. A floating debt of 72,000,000,000 marks is a constant danger, and the removal of this debt is one of our most urgent tasks. There are two ways in which to do it—either its conversion into a funded loan, or its extinction by big levies and a heavy property tax. I do not indulge the hope that these two ways will immediately yield the entire liquid amount of 72,000,000,000 marks. It is the duty of conquered people not only to bow to a state of compulsion, but to achieve an inward conviction as to the necessity of giving up all riches and all that is superfluous.

"Changes in the system of tax-

tion will be speedily submitted to the national assembly, and this reform will represent the completion of the whole work.

"The world has denied us international justice. All the more passionately and energetically, however, will we work for the home land again, and flourishing in justice, concentrate our care and endeavor upon the poor, but just German.

"One of the first requirements relative to the restoration of the life of labor is the establishment of orderly finances. I will have nothing to do with suggestions for the annulment of war loans and a declaration of general bankruptcy. My highest aim is to administer justice in the entire taxation system. The income from capital must be taxed much more heavily than the income from work. An inheritance tax and a heavy tax levy on property will be the initial steps that will be taken. The empire's income must be increased nine hundred per cent, and that of individual states and communes one hundred per cent. Such enormous changes require fresh measures."
